

**Protect Your Pets**

In addition to the tags your pet may have gotten from the vet for rabies, be sure to tag your pets with your name, address, phone number, veterinarian's name and phone number.

In the event you are separated this will be a great way to reconnect you.

Also have a copy of their medical history and any medicines they may require. Keep a good supply of food and water on hand for them. Click here for a [brochure](#) about pet preparedness.
